Technical Skills and Projects

Java Game development project – Created a 2D platform Java game using an adapted game engine based on Box2D. This project implemented many features such as rendering images, adding movement using the keyboard, including sound, multiple game levels to increase difficulty as the game progressed.

Work experience/ Employment History

Forest Gate Library – Volunteer June 2023 – Current

- Arrange and supervise activities for children between the ages of 5 and 13.
- Provide guardians and children with information regarding events and future activities.
- Assist the general manager with events for the local community.

This experience has improved my leadership and time management skills and as well as communication skills.

Iceland Supermarket – Temporary Sales Assistant November 2022- January 2023

- Organized stock and assisted customers with inquiries.
- Operated the checkouts and served customers.
- Developed organizational, communication and teamworking skills.
- Worked in a high pressured, fast-paced environment.
- Completed tasks within tight deadlines.

UniTemps City University of London Student Ambassador Campus Tours – September 2022

My role included directing new students around the University campus and providing them with information. I acted as a point of contact for students and parents/guardians around campus.

UniTemps City University of London Hybrid- Co-Pilot – October 2021-April 2022

- Managed and coordinated access to online lectures during the COVID pandemic.
- Ensured students to have access to their online portal Moodle software.
- Resolved IT related issues.
- Liaised with lecturers and learners, communicated effectively to ensure smooth running of the courses.
- Made sure students who listened remotely were able to hear and interact with students and lecturer in the class.
- Worked in high pressure situations and found solutions to problems.

Bright Network Internship experience -Technology -June 2020-July 2020

Undertook a 3-day internship where I worked in a team to plan a software project, and this developed my analytical, problem-solving, and networking skills. This experience gave me an insight into the software development lifecycle and the various techniques which need to be utilized to complete a project. It improved my planning, research and software testing skills.

Bell Pharmacy/ Lloyds Pharmacy-Ilford Assistant Pharmacy Dispenser June 2019- July 2019

- Organized the dispensing of patient medications.
- Prepared blister packs.
- Restocked deliveries for the company.
- Witnessed medicine use reviews.

During the work experience at Bell Pharmacy, I collaborated in a team of three and had regular meetings to organize the workload and discuss future improvements. I also worked closely with the supervisor to prepare prescription medications for patients.

Off to Work, London/Brighton Sales Assistant - December 2017- January 2018

- Managed match day football events at Brighton Amax Stadium and Emirates Stadiums.
- Worked behind tills and served customers.
- improved communication, teamworking and problem-solving skills.

Student Ambassador - University of Brighton November 2016

Roles included giving prospective students a tour of university accommodation, and school facilities and answering any queries.

Transferable Skills

Teamwork, Analytical, Communication, organization, and time-management skills
